Snow Balling.

About one young woman in ten nowadays would dare to run out bare headed and bare handed and frolic and snow ball in midwinter. They have to be muffled up like hot-house flowers before they dare venture out in severe weather, and even then would shudder at the thought of rollicking in the snow as their grandmothers did.

The trouble lies in the fact that too few women enjoy perfect health and strength of the special womanly organism. A woman who is not well and strong locally cannot enjoy good general health Dr Pierce's Favorite Prescription cures all weakness and disease of the delicate and important organs concerned in wifehood and motherhood It is the most perfect and scientific remedy ever devised for the peculiar ailments of women It restores womanly power, strength and virility. It tones and builds up the nerves which have been shattered by suffering and disease It corrects all irregularities and derangements and stops exhausting drains It restores weak, nervous invalids to perfect health It is intended for this one class of disorders and is good for no other. It is the discovery of Dr R V Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N Y No other known medicine can take its place.

"I have been troubled with female weakness that my physician called catarrh of the womb," writes Miss Tean Conner, of Catfish, Clarion Co, Pa "I doctored for it and did not get better. At last I commenced taking Dr Pierce's Favorite Prescription I got better right along and when I had taken four bottles was cured I recommended the 'Favorite Prescription' to a friend of mine She has been using it and thinks it is wonderful"

Constipation is a little illness that if neglected builds a big one Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe.

NEVADA STATE JOURNAL

FRIDAY, OCTOBER 21, 1898.

EASTERN ADVERTISING OFFICE 230 to 234 Temple Court, New York City E. Katz, Agent.

THE PROOF OF SLANDER.

The JOURNAL publicly challenges the opposition to Senator Stewart to prove one out of every fifty of the charges they are bringing against him. If all the old scancal mongers of the State were under salary they could not do any better than they are doing. The best evidence is available in the *Congressional Record*, and in the *Reports of the Committees of Congress* to substantiate, if true, what they assert against Senator Stewart. Why is it not produced?

Why don't we have presented for our consideration excerpts from the *Congressional Record* showing that Senator Stewart betrayed the people of Nevada for the Pacific railroads. if it be true? Why are not the opposition papers full of extracts from the Reports of the Committee on Pacific Railroads showing specifically wherein he betrayed our interests?

They cannot produce them. They are lies, pure and simple lies. Any old scandal monger can invent more falsehoods about another in an hour than that person can deny in a week. In a country where the meanest criminal even is presumed to be innocent until proved guilty, a citizen who is worthy of any credence whatever, in making a charge against a public official, which is unaccompanied with any proofs whatever, is not deserving of a respectful hearing. Proofs can be obtained in a few hours' time in the Carson State Library, and in many other libraries of the State with reference to any of the hundreds of allegations put forth by the speakers and organs of the opposition. But they are not presented.

Let us have them. Give us the page and volume of the public records wherein it is shown that Senator Stewart proved himself an agent or attorney of the Pacific railroads. Show to us a speech that he made which will give any such inference. Produce a vote that he cast wherein he forgot that he owed the highest allegiance to the interests of the people of this State. They are to be had, if they exist.

Half of the time expended by Mr. Alf. Chartz, Mr. William Woodburn, Mr. David Truman, and the editor of the *Enterpise* in inventing charges against Senator Stewart, might be better expended in proving one. The above gentlemen have rung all the charges upon statements like the one following, which, although the JOURNAL and many other papers published a challenge to prove its authenticity, yet still continues going the same old rounds, unproven and unretracted. In his last "Quelquefois" letter, Mr. Chartz quotes it as an undisputed fact and builds upon it an airy edifice of vituperation and abuse:

"Stewart said before a Senate Committee 'that it would be an imposition upon the railroad to compel them to establish a terminal point within the boundaries of Nevada, a desert in which there was no business.'"

This charge originated in the Winnemucca *People's Advocate*, whose editor is Mr. David Truman. Will the father of the item, or any of its sponsers, accept the JOURNAL'S challenge to prove that it appears anywhere in any public record? We propose to begin running down campaign lies and before we get through, veracity among the opposition to Senator Stewart, will be at a premium.

ALF CHARTZ'S latest is that Senator Morgan of Alabama charged upon the floor of the Senate that the votes of Senators Stewart and Jones upon the tariff bill were secured through a promise exacted from the Eastern Republicans that they would pass the diabolical funding bill. As Senator Morgan voted for the funding bill and supported it upon the floor of the Senate, there seems to be a screw loose somewhere in Mr. Chartz's complaint. Therefore we enter a demurrer.

IT is understood that Hon. William Woodburn is preparing a manifesto requesting Senators Jones and Stewart and Congressman Newlands to resign that their places may be supplied by those *bona fide* products of our soil, William Woodburn and James F. Dennis for the Senate and Alf Chartz for the Lower House. This ought to stop the wrangling.

The registration in Washoe county amounts to about 2,000 voters; in Storey, 1,305; Ormsby nearly 1,000; Lyon, Esmeralda and Douglas something over 1,000. These six counties comprise over one-half of the vote of the State. With four candidates for nearly every State office, it is exceedingly difficult to estimate majorities.

IF Mark Hanna has to pay his legal representatives in this State for their services by the column instead of by the brief, as it now looks, there will be quite a draft upon his exchequer.

THE opponents of Senator Stewart are getting awful reckless of their veracity, considering the small supply they have on hand.

WE can never correctly "see ourselves as ithers see us" until we run for office and read the opposition papers.

AT this stage of the game every candidate will be elected.

Cleveland's Ovation on the Comstock.

"During Mr. Cleveland's speech the frost crystals, which had decorated the atmosphere at the beginning of the circus, gradually increased in density and frigidity until nearly every spinal column in the hall was acting as a trolley for the cold chills that chased one another up and down many a stiff old G. O. P. backbone. The chilly atmosphere even bit into the tough cuticle of A. C. Cleveland, and the race he made for his overcoat at the conclusion of his remarks, hardly permitted him time to bow his acknowledgements to the few misguided adherents who gave him a scattered round of applause. This condition of affairs continued to the end of the meeting when every one skurried homeward to take a hot drink and other measures against an attack of pneumonia."—*Virginia Report.*

Hogan's Alley.

The most popular creation of modern journalism, is without question the effervescent "Yellow Kid," originated by R. F. Outcalt of New York. Thousands of people throughout the country have followed Mickey Dugan, the saffron colored globe trotter in his wanderings around the globe and have read with avidity and keen delight his trite interviews with the sage advice to, the potentates of Europe. Mickey is at present starring in the brightest and merriest farce comedy on the stage, "Hogan's Alley." He will visit this city in the next week and will bring with him all the merry characters that made up his retinue on his tour of the world. "Hogan's Alley" will be seen at the Opera House on Wednesday the 26th. Reserved seats at Miss Dickinson's at $1 00 and 50 cents.

Roll Call.

Last evening the bugle sounded for a rally call of the soldiers who have been out on a furlough.

To the surprise of many nearly all of the boys were in line to answer their names at roll call.

After the roll call was finished a board of survey was appointed consisting of a Lieutenant of each company.

The boarding and lodging places were designated and those who wished ordinance were ordered to report at 8:30 this morning.

The boys who are now at work will not be requested to report at roll call. —*Appeal.*

Snowsheds' Gloom Relieved.

The gloominess of the ride through the snowsheds has been greatly relieved by the shed carpenters this summer. For long distances, particularly where the scenery is most attractive, the boards that ran horizontally in front of the car windows have been removed and replaced with vertical batteries, one by six, placed one and one-half inches apart. With this new arrangement while moving at a good rate of speed, one enjoys an almost unobstructed view of the landscape.—*Truckee Republican.*

Has the Right Ring.

A private letter from H. A McCraney, nominee for Clerk of the Supreme Court of California on the Silver Republican Party ticket, contains the following:

"I have read your State platform and it has the right ring, and it does seem that any party backed up by such principle should surely win. We look forward to a great victory for the combined silver forces in this State."—*Appeal.*

FOR SILVER

Large and Enthusiastic Meeting at the Opera House.

SENATOR STEWART MAKES A TELLING SPEECH.

Hon. F. H. Norcross, Hon. Wm. Thompson and Others Address the Audience.

Standing room was at a premium last night in the Opera House to hear the Silver-Democratic candidates upon the county ticket and Senator Stewart. A larger and more enthusiastic audience seldom if ever before gathered in Reno at a political meeting.

Bonfires blazed on the plaza and anvils commenced firing nearly an hour before the meeting. The lively strains of Hasting's band welcomed the people to the hall.

The large audience was called to order by Chairman Holesworth of the County Central Committee and Hon. H. H. Beck was by him introduced as Chairman of the meeting.

Mr. Beck, after calling off the names of the Vice Presidents and inviting them to the stage, made a little address which was received with interest and applause. Mr. Beck gave some of his experiences in the State in the early days and contrasted its life and business excitement then with the condition to-day. He declared that what was the matter with Nevada was the matter with the whole country, and that no man could work so well for the State as by championing the cause of silver, which with a long pull, and a strong pull and a pull all together now and in 1900 would win.

The Silver Quartette, composed of Messrs. Loder, White, Murray and MaLotte, sang a campaign selection and received an enthusiastic encore. Mr. Beck said that the singing made him think of the good old song, "There's a Good Time Coming, Boys, a Good Time Coming," and he proceeded to render a stanza. When he arrived at the last line the audience could not restrain their enthusiasm and the bar was drowned. Mr. Beck laughingly said he knew what was coming and introduced

HON. FRANK NORCROSS.

Candidate for the Assembly. Mr. Norcross devoted himself principally to a reply to the speech of Hon. A. C. Cleveland. His address, delivered entirely off-hand, was a masterly effort, and held the closest attention of the audience. He took up the principal features of Mr. Cleveland's speech and when he got through he had not left much of that gentleman's remarks that would hold water. Mr. Norcross said that what Mr. Cleveland stated here last Saturday night consisted of three principal charges against Senator Stewart. That Senator Stewart was an advocate of the gold standard in 1873 and 1874. That he had knowingly voted to demonetize silver in 1873, and that he could have and should have obtained terminal privileges on the railroad for Reno by Congressional action. Mr. Norcross took up these charges with the statement that either Mr. Cleveland was unacquainted with the facts or knowingly misrepresented them. That inasmuch as the facts were so easily obtainable, either horn of the dilemma placed Mr. Cleveland in the light of being hardly a proper man to occupy the great position to which he aspired. For if he made the charges, knowing them to be false, he forfeited his right to the serious consideration of the people, and if he made such grave charges ignorantly, when a few hours investigation would have proved the contrary, he was likewise wanting in the qualities of the true statesman from the demagogue.

In reply to the first charge Mr. Norcross said that the extracts read by Mr. Cleveland to prove that Senator Stewart was a goldbug in 1873-4, were garbled extracts from a speech delivered by Senator Stewart upon the question of the resumption of specie payments, and were first used by John Sherman in a speech at Cleveland, Ohio. He stated that the context of the speeches proved the absolute contrary to what Mr. Cleveland contended. Mr. Norcross then showed that Senator Stewart was in illustrious company with reference to his part in the demonetization of silver, quoting extracts from speeches delivered by Garfield, Voorhees, Blaine, Beck, Thurman and others who likewise stated that they voted upon the bill on the faith of what Senator Sherman represented it to be, and that they did not know at the time that it demonetized silver. With reference to the last charge of Mr. Cleveland's, that Senator Stewart could have done so, but had failed to secure terminial point privileges for Reno, Mr. Norcross said that the falsity of that assertion was proved by the mere fact that such legislation was entirely without the province of Congress. The speaker then went on to show the result of his own investigation in the matter and stated that in his judgment the most practical method of procedure to get what we wanted was for the State Legislature to make an appropriation for the purpose of gathering evidence and submitting our case before the Interstate Commerce Commission, which he and his colleagues are in favor of doing.

HON. WILLIAM THOMPSON.

Hon. William Thompson was the next speaker. Mr. Thompson gave some reminiscences of his experience in past Legislatures when A. C. Cleveland was representing the Virginia & Truckee Railroad, which placed that latter-day reformer in anything but an enviable light. Mr. Thompson said that Senator Stewart to his knowledge had got freight rates reduced in a large number of instances as a personal matter by going himself before the railroad managers. He read a letter which he had received some time since from Senator Stewart upon a matter of freight rates in which he himself was interested showing that the Senator had acted immediately in his behalf.

SENATOR STEWART.

At the close of Mr. Thompson's speech the Glee Club was called, but the audience was so anxious to hear from Senator Stewart and his name was called so frequently that the Glee Club had to be dispensed with and the Senator came forward and was greeted with prolonged applause. The Senator was in fine voice and in the course of his address reviewed the issues of the campaign and explained the source of the opposition which has been working to accomplish his defeat. The Senator referred to his first visit to Nevada in 1859, his settlement in the City of Virginia the year following where he entered upon the practice of the law and also engaged in milling and mining enterprises. He took an active interest in the formation of the State Government, being a member of the first Constitutional Convention. When the State was finally admitted into the Union, he was elected one of her first Senators. "At that time," said the Senator, "On the Comstock there were 3,700 men belonging to the Union Club. When the name for Senator came up there were several aspirants and it was agreed that we should submit our claims to the club and the successful man should have no further opposition. This was done, and I received thirty-five hundred of the thirty-seven hundred votes."

Although then a young man in the Senate, he was entrusted with important legislation and prepared many of the reconstruction measures. He became chairman of the Judiciary Committee, then one of the most important committees and reported the fifteenth amendment to the Constitution of the United States. At the expiration of his first term he was re-elected practically unanimously. During this time the question arose as to mining legislation, and the Senator drafted a complete system of mining laws which met the approval of Congress. Those laws to-day secure to the miner the fruits of his industry.

At the expiration of his second term, the Senator stated that he found himself in reduced circumstances by reason of mining ventures which had failed. He withdrew from political life and again returned to the practice of his profession which he actively engaged in throughout the Pacific Coast.

In 1886 he again became a candidate for the Senate and was practically unanimously elected, as he was again six years later. The Senator referred to the charge that he had never done anything for the State, and said that he had done all that any man reasonably could do. That so far as lay in his power he had complied with every request made of him by the people of the State.

The Senator said that when he entered the Senate the second time, the Morrill bill had been pending for years. He interested himself in the measure and offered certain amendments to it eliminated certain features and in a short time the bill become a law, as a result of which, the State University now gets $25,000 a year Government aid. The Senator explained also how he worked to perfect legislation in this State in order to establish an Experiment Station at the University, which brings that institution an additional fifteen thousand dollars annually. The Senator showed how he had secured the Indian School at Carson and had got for the people of Wadsworth the title to their homes. The Senator also explained quite fully the status of the State claim against the Government for $404,000 and the Piute Indian war claims of some twenty-odd thousand dollars. These claims the Senator has passed through the Senate on several occasions, but they have always failed in the House. The Senator says he now has the bill in conference and a favorable report will be made to the House during the coming session. In the meantime he is taking active steps to inform the members of the House upon its merits. The Senator said that he had put a vast amount of time and labor upon these claims and the reports obtained by him fill two large volumes.

"I am charged with being an attorney of the railroad," said the Senator; "I challenge them to produce evidence of it. My record is an open book. In the matter of the collection of the debt upon the Central Pacific railroad I have in every instance followed the direction of the party platform and the State Legislature. The funding bill which passed the last Congress was prepared by Senator Morgan and others who are known to be in favor of exacting every cent from the railroad. I never opposed the measure and it passed with my approval."

The Senator closed with a stirring reference to the war and the achievements of the Army and Navy.

PLATFORM.

The Silver Party of Nevada pledges its unwavering devotion to the principles of government laid down by Jefferson and Lincoln That the high st duty of government is to so regulate its laws that the spirit of equality shall follow man through life giving each amplest opportunity to work out to the fullest measure his possibilities unrestricted by law, and unafflicted by the conquest of his dominion of opportunity by other men We indorse, as expressing the demands of the American people in consonance with the foregoing the platform of the National Silver party formulated at St Louis July 22 1896 and the financial plank of the National Democratic party adopted at Chicago July 7 1896

The history of the movement for the restoration of bimetallism is the glorious story of Nevada's leadership The educational work so patriotically undertaken six years ago has spread throughout the entire country On the issue that the value of money is quantitative and not qualitative the intellectual and political forces of nations are now battling Mindful of her glorious record Nevada will take her place again in the conflict not as the ally of gold but on the side of those who struggle in the fields of adversity

We reaffirm our devotion to the free and unlimited coinage of silver at the ratio of 16 to 1 by the independent action of the United States and we are unalterably opposed to the Republican policy of increasing the bonded debt of transferring the sovereign power of the government to issue money to banking institutions of contracting the circulating medium to the single gold standard and of increasing taxation while contraction is diminishing the means of payment

Our faith in the loyalty ability and wise leadership of William J Bryan is undiminished, and we predict for the Silver forces of the United States with 16 to 1 as their motto, and William J Bryan as their standard bearer an overwhelming victory in 1900

We invite the co operation of the Republican party of Nevada who declared in their platform of May 9 1896 as follows

"RESOLVED That the Republican party of this state is in favor of free and unlimited coinage of both gold and silver, that it holds to this principle as a tenet of party faith and a test of party allegiance, that it will permit of no abandonment or modification of this doctrine; that let whosoever prove recreant to the principle of bimetallism it will remain steadfast thereto."

And who on May 9, 1896, at Virginia City, declared as follows:

"We again reiterate our steadfast devotion to the cause of the free and unlimited coinage of silver, and declare that in our judgment the restoration of the true bimetallic standard of value as it existed previous to 1873, namely, at the ratio of 16 to 1, is an absolute and indispensable requirement before the financial system of our government will afford the people a value of stable circulating money sufficient to place the business of the country on a permanently prosperous basis"

We indorse the action of Nevada's representatives with respect to tariff and financial legislation commending their patriotic support of the administration in time of war, whilst using all efforts to prevent the issuance of bonds

We say to the Republican party of Nevada: Do not the benificent results of the tariff schedules of the Dingley bill which affect Nevada, and which Nevada's Silver representatives secured, namely wool cattle hides, cyanide, and borax, fall upon you as the rain falls upon the just and the unjust? And if so, in what manner could Republican Representatives] have done more?

We say to the Democratic party of Nevada: Has not the action of Nevada s Representatives on financial legislation been in keeping with the Democratic platform of 1896 and, in this respect, could Democratic Representatives have done more?

We express our profound appreciation of the tireless efforts of Nevada s grand old man, Wm M Stewart, not only as the leader of the silver cause in America but for his great devotion to the local interests of the State, as exemplified by the fact that he has been the author of many of the important measures affecting Nevada's interests which have been enacted by Congress namely, the mining laws of the United States, the Carson Mint, the Stewart Institute the establishment of the Agricultural Experiment Station, which enables the State University to receive $40,000 a year Government aid, and the securing of a military instructor at the State University We further commend his efforts, now likely soon to be crowned with success, to secure the payment to the State and citizens of Nevada of nearly half a million dollars for moneys expended in the suppression of the war of the rebellion, and Indian outbreaks We indorse his proposal to secure legislation making Lake Tahoe and vicinity a national park, the Government purchasing on an equitable basis the rights of parties whose interests are affected, as not only preserving from destruction one of Nature's grandest works, but giving the National Government control for irrigation purposes of a great lake reservoir which will guarantee the farmers along the Truckee river more water for irrigation, and enable a vast additional area of arid land to be brought under cultivation.

We earnestly recommend the re-election of Wm M Stewart to the Senate of the United States, and pledge the Silver party of Nevada and the nominees of this convention to his support for that office

To our other Senator, John P Jones, we extend the greeting of a people who rejoice that they have such a great public servant who has honored the commonwealth which has delighted to honor him His pre eminent knowledge of all financial questions has been used by him for the benefit of the whole world and his speeches in the United States Senate upon the silver question have become the text book of those statesmen who are devoted to the interests of the whole people

We take pride in the career of Francis G Newlands in Congress, notably in the fact that he has risen in six years to a place among the leaders of the House, and that his influence in public affairs is becoming more and more manifest as is shown by his great part in the annexation of the Hawaiian Islands, a consummation anticipated and desired by the American people for more than fifty years We declare that Nevada cannot afford to lose him as her Representative in the halls of Congress

Recognizing the importance of State development upon agricultural lines we commend the efforts of our Representative in Congress to secure for the State of Nevada legislation looking to the reclamation of arid lands and the storage of water in reservoirs and urge our Senators and Representative in Congress to secure the passage of the irrigation bills now before Congress introduced by our Representative Francis G Newlands

The United States is now in the rightful control of Cuba Porto Rico and the Philippine islands and we are in favor of holding the same until the American people shall have time to consider and make such disposition of the new acquisitions as sound policy and the interests of the whole country may require

We favor the construction of the Nicaragua canal by the Government of the United States of America as a political and commercial necessity

At the last session of Congress a law having been passed providing for the settlement of the indebtedness of the Central Pacific railroad to the Government of the United States the terms of which require the payment of the entire debt principal and interest within ten years, with interest at the rate of 3 per cent per annum, and on failure to make such settlement within one year the mortgage lien of the United States to be at once foreclosed and the property sold to the highest bidder we favor foreclosure according to the terms of said Act in case its conditions regarding settlement are not complied with

Certain decisions of the United States courts having shorn the Inter State Commerce Commission of the authority and powers undoubtedly intended to be conferred upon it when originally enacted we favor such amendments to the Act as will make it an effective protection to the people against discriminating tariffs

The heroism and valor of the American soldier and sailor have won additional laurels during the war with Spain The story of the brave deeds of our naval and military heroes will forever form a glorious page in American history On land as well as sea American defenders have proved their unsurpassed courage Praising those who fought our battles we condemn the fruitless conduct of those officials wherever responsibility may rest to whose culpability is due the death by starvation and disease of several thousand of our men We demand that the awful scandals involved in the conduct of the war be impartially and completely investigated and that adequate punishment be meted wherever due

The people of Nevada are justly proud of their University We commend the efficient management which has made it an institution of infinite usefulness and widening possibilities Its influence is already felt as a potent factor for the intellectual and economic development of the State We pledge to it generous support and hearty co operation along every line that will tend to maintain its present high standard or conduce to its improvement

This convention pledges its nominee for Governor that he will approve of such legislation as will carry into effect the sixth section of Article 10 of the State Constitution which provides that the Legislature shall provide a special tax which shall not exceed two mills on the dollar of all taxable property in the State in addition to the other means provided for the support and maintenance of the State University and common schools This convention recommends all county conventions of the Silver party to pledge their nominees for the State Legislature to carry into effect the State Constitution by passing a bill levying a tax of one mill on the dollar of all taxable property in this State in addition to the other means now provided by law for the support and maintenance of the State University and common schools of this State

We invite comparison of the four years during which the Silver Party has been in control of the State Government with the last four years of the Republican regime The expenses of the last Republican Legislature amounted to $91 000 that of the last Silver Party Legislature to $9 500 The expenses of the Executive Department for the last year immediately preceding Silver Party control amounted to over $18 000 while but $3550 were the expenses of the Executive Department for 1897 For the last four years of Republican management $8 000 were expended in public buildings as against $97 000 by the Silver Party And during the periods in comparison in support of the public schools of the State the Silver Party expended $977 000 against two $600 by the Republican party No one can examine the foregoing and many other facts and figures which might be adduced without the resulting conviction that the Silver Party has fulfilled its promise of retrenchment with reference to salaries of State officials and the curtailment of unnecessary expenses while on the other hand it has generously fostered the educational and charitable institutions of the State and wisely contributed to its public improvement
